WAY TO DIGITAL EDUCATION

# MESSAGE FROM THE PRINCIPAL

The core purpose of education is to provide children with a learning environment which brings out the best in them. We believe that every child is endowed with a unique set of attributes and abilities, which need to be nurtured so that they blossom. Therefore, every child deserves an education that fosters academic excellence and all-round development, and ensures their well-being. We are inspired by these tenets in everything that we do at Ompee Global School.

At the Ompee Global School, we aim to prepare confident leaders of tomorrow. It is our continuous endeavour to train students to develop the “will to act” and the skills and values necessary to make a positive contribution to society. We like our students to take the responsibility of their own learning as we believe that the more they are involved with the decision-making about their learning, the greater will be the learning outcome.

Our caring and committed teachers are our pillars of strength. They teach our children not just with their minds but with their hearts. They make learning enjoyable and rewarding, and imbibe in children the importance of sound values.

I warmly invite you to explore OMPEE as we re-dedicate ourselves every day, to impart the very best education to young minds.

Mr. Paul J P David  
Principal

# THE CRADLE OF WARMTH AND CARE

## A WELL RESEARCHED CURRICULUM

To Develop Life Skills of children that will make them happy, satisfied and successful.

We, at Ompee World School, believe that education lies beyond the textbook and that the learning comes from self- enquiry and research, from discussions, reading and encouraging the natural curiosity to young minds. While preserving the best in traditional Indian and International education and culture, We have opted for a student-centered system with ample opportunities for project work and discovery learning, guided by a well-qualified international teaching faculty with generous access to quality in service training both in India and abroad. In order to ensure that every student's talent are developed to the full for which the school applies multiple intelligence approach.

### **ACADEMIC KNOWLEDGE**

Contextual knowledge of subject such as Languages, Mathematics, Science. these are based on the IB curriculum and focus at preparing student for life

### **PERSONAL DEVELOPMENT**

For each student, there is a personalised component to develop their habits and skills around health and fitness, performing art, time managing and reading habits.

# THE 4 C'S OF THE 21<sup>ST</sup> CENTURY

**COMMUNICATION SKILLS, CREATIVITY, CRITICAL THINKING** and **COLLABORATION SKILLS** are required in the day- to - day work environment to be successful and competitive.

01

## COMMUNICATION SKILLS

Learners are encouraged to question, share and express their ideas and views, which are then shared, discussed and analysed before reaching a conclusion

02

## CREATIVITY

Creativity is not taught but is inherent in all. It is important to provide space to the learners to explore their in hand talents and to nurture it further. This is what our classrooms do.

03

## CRITICAL THINKING

The learners are put in situations that enable them to analyse, evaluate, explain and restructure their thinking. They learn to build perspectives and different view points

04

## COLLABORATION SKILLS

The learners are assigned task that are worked through project work. Team work is encouraged while the students are also developed into independent learners

- Cameras in our school buses
- Police verification and check for all staff members
- Designated staff to accompany children in the bus stop
- Controlled visitor access
- Pre and Post alerts Messages

# WORLD CLASS FACILITIES

## MEDICAL ATTENTION

- Tie up with hospitals of repute.
- In house medical care.
- Trained nurse on campus.
- Doctor on call.
- Well equipped medical room.
- Generating medical reports on a quarterly basis.

## OYSTER BAY DAY CARE

Unique and Distinctive approach to early learning and pre schooling education...

Oyster Bay Day Care, is a part of our Ompee Global School and we began our journey on April 14th 2017. We have a very special early childhood nursery environment, for children where the rhythm of daily life is gentle and unhurried, where the deep needs of babies and children to create, initiate and imagine freely are unhindered. We offer your child a unique, secure, loving and fun environment filled with experiences, opportunities and activities to help him\her learn and develop. We have a registered nurse on site.

Children have access to the music and multi purpose room with piano, guitars, African drums and children's musical instruments where they can explore their creativity. We provide a well resourced indoor play area designed to cover all essential learning components.

## DLI / SHADOW TEACHER

The core purpose of education is to provide children with a learning environment which brings out the best in them. We believe that every child is endowed with a unique set of attributes and abilities, which need to be nurtured so that they blossom. Therefore, every child deserves an education that fosters academic excellence and all-round development, and ensures their well-being. We in Ompee celebrate a culture of excellence in academics and the all-round development of children. We try to cater individualize attention to each child to their diverse learning needs through DLI (Differential Learning Instruction in Classroom).

### **ASSESSMENT**

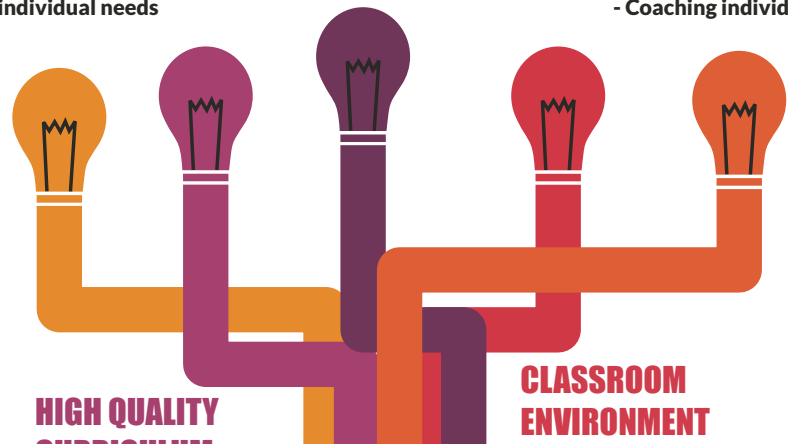

- Driving instruction
- Clarifying misconceptions
- Documenting individual needs

### **RESPECTFUL TASKS**

- Applying standards
- Offering choice
- Honouring individual learning

### **FLEXIBLE GROUPING**

- Adjusting time & resources
- Managing challenges
- Coaching individual needs

### **HIGH QUALITY CURRICULUM**

- Teaching to endure understanding
- Engaging all students
- Selling clear expectations for all

### **CLASSROOM ENVIRONMENT**

- Developing a shared partnership
- Understanding interests & motivation
- Acknowledging readiness levels

## **DIFFERENTIATION**

# WORLD CLASS FACILITIES

## DIGITAL CLASSES WITH ADVANCED LEARNING

Big or Small, Smart Classes For All **Ompee Global School** truly understands that in order to excel in this smart era, students need Smart Learning. This is the reason that we have brought a rich environment of computer aided learning. Today in every school, smart class is a must.

### CODING

Coding is umbilically linked to creation. It is a thrilling subject that empowers every child. We have included the subject **CODING** in our curriculum to give wings to our young Imaginators.

## CONNECTING WITH OTHER INNOVATORS

Joining an online professional network, can also be an excellent way to gain the expertise and support you need, to make your children as successful as possible.

You can connect with others who are interested in innovative ideas, approaches and practices in educational settings. You can connect, collaborate and share with people who are interested in new ideas and ways of doing innovative things.

# THE WE CAN PHILOSOPHY

**WE** C - Create Learners  
A - Acknowledge young achievers  
N - Nurture future leaders

We aim to nurture happy and healthy children in a safe and stimulating environment, provide positive role models for our children through building strong relationships and provide an enjoyable, creative and challenging curriculum that offers a wide range of exciting experiences. We create benchmarks in behavior and academic performance. We intend to provide a welcoming, caring atmosphere where everyone is included, valued, and celebrated.

## OMPEE EXPERIENTIAL LEARNING CASTLE

The PBL/ Experiential Learning at the hustle lab at Ompee is thrilling and most enlightening with a plethora of fulfilled learning experiences. It is a world of awesome learning. We believe that every child is best with innate skills. We find reasons to celebrate the genius of each child.

Our PYP Problem based Teaching and Learning (PBL) inspired classroom focuses on building the cognitive, social, language, creative, and skills that empower students to be knowledge bearers and researchers in their own learning experiences.

Children construct their own knowledge through exploration and experimentation. As they do this they are guided by the educators, who provide materials and support for children to meet certain developmental challenges known as key experiences.

OMPEE GLOBAL  
SCHOOL

WAY TO DIGITAL EDUCATION

# STUDENT EXCHANGE PROGRAMME

An opportunity for our students to explore a whole new culture and schooling as they step out of their comfort zone attending school along with international students abroad.

Through this, they are exposed to diverse cultures and expertise, broadening their perspective of the world.

Student Exchange Programme is a paid programme that introduces the students to several global platforms.

# OUR CURATORS – TEACHERS AND THEIR TRAINING

We place paramount importance on selection of teachers with best ability, potential, and proven track record. We realise that teachers are the spine of a successful school, and our selection procedures thus are elaborate and well- researched. We also closely monitor the work of our teachers and review their performance regularly through teacher appraisals to assess their knowledge and skills, their attitude and behaviour in the classroom as well as in the community.

We also look to maintain the most congenial classroom environment striving for a teacher student ratio of 1:10. We seek regular 360\* feedback from our students and parents about our teachers. All staff members of the school take part in a Continuous Professional Development (CPD) and adequate resources are allocated to develop their skills.

Field trips, excursions, activities, projects and presentations provide experiential learning opportunities.

Dance, Fine Arts, Western and Indian Music, Yoga, Speech and Drama promote well-rounded development.

Students are encouraged to participate in inter-clan cultural and sports events.

Active learning techniques like free play, dramatization, puppetry, singing, dancing and cooking enhance their interest in learning.

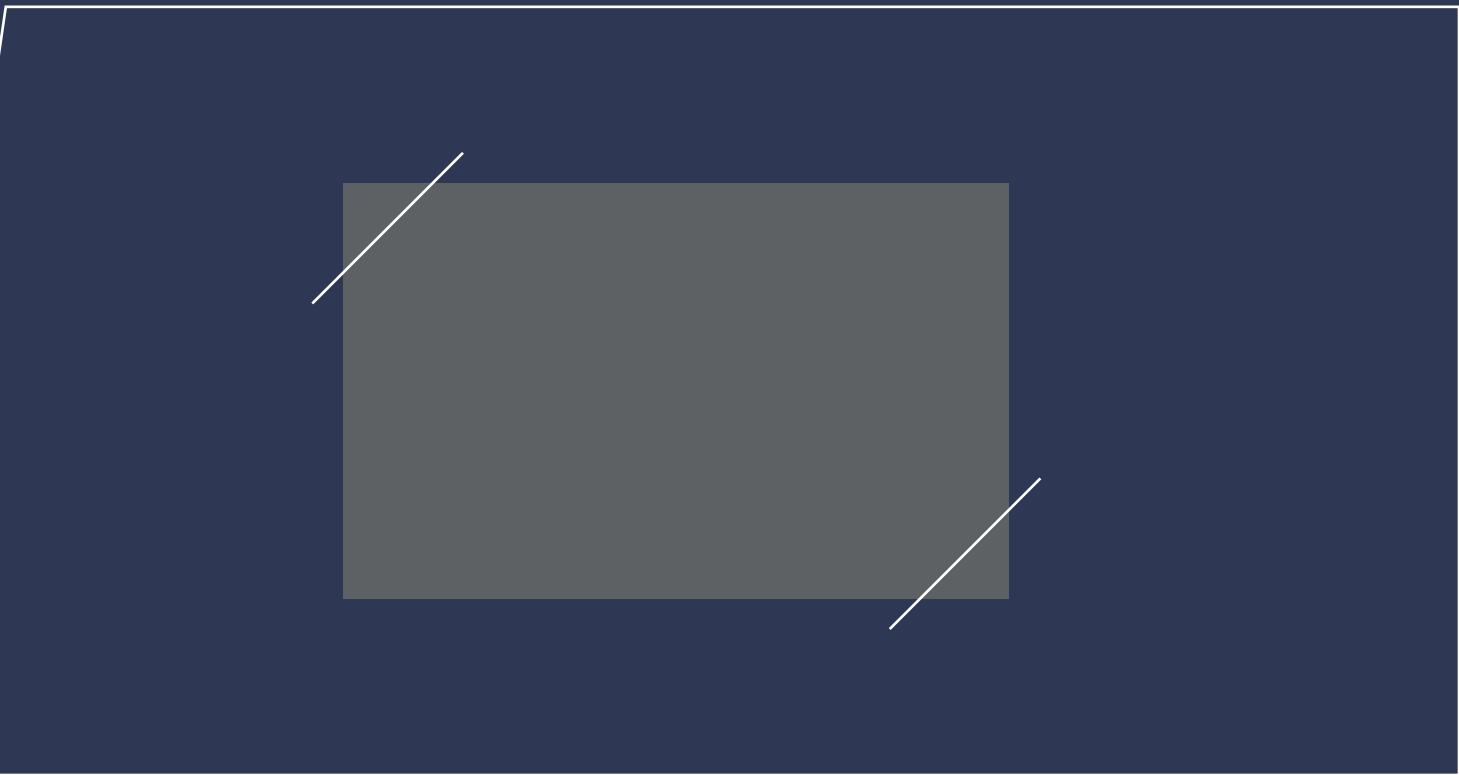

Book, newspaper and magazine reading activities increase children's awareness of the world.

Assemblies, concerts and drama productions help shape their confidence.

Students' engagement in community service activities from Class III onwards sensitizes them to the needs of their community and to the world around them.
